OVERVIEW

What Is Custom Digital Solutions?

Custom Digital Solutions are tailored business applications designed to digitize, automate, and optimize unique operational processes that drive efficiency, transparency, and growth.

Tailored to Your Business Needs

Solutions designed around your unique processes and goals.

Built for Efficiency

Automate workflows and eliminate manual tasks.

Secure & Reliable

Enterprise-grade security and role-based access control.

Scalable & Flexible

Grow and adapt as your business and needs evolve.

OUR APPROACH

1. BUSINESS CHALLENGE

We understand your challenges, goals, and operational needs.

2. PROCESS DESIGN

We analyze and design the right digital workflow and solution architecture.

3. DIGITAL WORKFLOW

We build custom applications with automation, integration, and intuitive user experiences.

4. AUTOMATION

We automate tasks, approvals, and notifications to streamline operations.

5. BUSINESS OUTCOME

You get measurable results, improved productivity, and better decision making.

BUILT ON GATEPRO PLATFORM FOUNDATION

CMS ENGINE

Manage content, structured data, and digital assets with ease.

WORKFLOW ENGINE

Design, automate, and manage business processes end-to-end.

DASHBOARD ENGINE

Real-time dashboards for monitoring performance and operations.

ANALYTICS ENGINE

Transform data into actionable insights and reports.

INTEGRATION ENGINE

Seamlessly connect with internal systems and third-party services.

IDENTITY ENGINE

Secure authentication, user roles, and access management.

Faster Development

Leverage reusable components and proven platform capabilities.

Lower Total Cost

Reduce development time and long-term maintenance.

Enterprise Ready

Built with security, scalability, and reliability in mind.

Scalable Architecture

Handle growth, users, and data without compromising performance.

Reusable Components

Accelerate delivery with a library of proven building blocks.

Custom Solution Portfolio

Built For Unique Business Requirements

We design and develop custom digital solutions that address unique operational challenges, streamline workflows, and deliver measurable business impact.

01

Digital Amanah Platform

Digital ecosystem for organizations managing zakat, waqf, donations, and community engagement.

- ✓ Donation & Fund Management
- ✓ Zakat, Waqf & Infaq Management
- ✓ Beneficiary Management
- ✓ Community Engagement

02

National Football Platform

Unified platform for football federation, clubs, leagues, academies, and fans.

- ✓ Competition Management
- ✓ Club & Academy Management
- ✓ Player & Talent Development
- ✓ Fan Engagement & Ticketing

03

Fleet Risk Intelligence Platform

Fleet operations, tracking, safety monitoring, and risk analytics in one platform.

- ✓ Real-time Vehicle Tracking
- ✓ Driver Behavior Monitoring
- ✓ Risk Scoring & Alerts
- ✓ Analytics & Reporting

04

Smart City Service Platform

Digital platform for citizen services, complaints, permits, public info, and city operations.

- ✓ Citizen Service Portal
- ✓ Complaint & Incident Management
- ✓ Permit & Application Management
- ✓ Public Information & Dashboard

05

Enterprise Resource Platform

Streamline internal operations with workflow automation, approvals, and performance monitoring.

- ✓ Workflow & Approval Management
- ✓ Task & Project Management
- ✓ Performance Monitoring
- ✓ Document & Knowledge Management

06

Industry-Specific Custom Platform

Tailor-made digital platforms designed for unique business processes and industry needs.

- ✓ Tailored Business Solutions
- ✓ Industry-Specific Workflows
- ✓ Scalable & Future-Ready
- ✓ Built on Proven Foundation

All solutions are built on
Gatepro Platform Foundation

CMS Engine
Manage content with flexibility

Workflow Engine
Automate and orchestrate processes

Integration Engine
Connect systems and services

Analytics Engine
Turn data into actionable insights

Security & Identity
Enterprise-grade security & access

Scalable Architecture
Built to scale for growth and future

GATEPRO FOUNDATION

Built On Gatepro Platform Foundation

All custom solutions are built on the robust, secure, and scalable Gatepro Platform Foundation.

**One Foundation.
Unlimited Solutions.**

Reusable components, enterprise security, and future-ready architecture that accelerate digital transformation.

YOUR CUSTOM DIGITAL SOLUTION

FOUNDATION BENEFITS

-  **FASTER DEVELOPMENT**
Pre-built engines and components accelerate time to market.
-  **LOWER TOTAL COST**
Reusable foundation reduces development and maintenance cost.
-  **ENTERPRISE READY**
Built with security, reliability, and compliance in mind.
-  **SCALABLE ARCHITECTURE**
Designed to grow with your business needs.
-  **REUSABLE COMPONENTS**
Consistent, proven, and continuously improved modules.
-  **FUTURE READY**
Cloud-native, API-first, and ready for emerging technologies.

**Reliable. Secure. Scalable.
Ready for Anything.**

Enterprise Security
Built-in security, encryption, and compliance.

High Availability
99.9% uptime with redundant infrastructure.

High Performance
Optimized for speed, efficiency, and scale.

Global Scalability
Scale across regions and handle growth.

DevOps Ready
CI/CD, monitoring, and automation enabled.

PLATFORM BUILDING BLOCKS

Components Available Out Of The Box

Our pre-built, modular components accelerate development and ensure enterprise-grade quality, security, and scalability.

01

CONTENT MANAGEMENT

Powerful CMS to manage content, structured data, and digital assets.

02

USER & IDENTITY

SSO, role-based access control, user management, and permissions.

03

WORKFLOW AUTOMATION

Design and automate approval workflows and business processes.

04

PORTAL FRAMEWORK

Pre-built portal framework for customers, partners, and internal users.

05

DASHBOARD FRAMEWORK

Configurable dashboards for real-time operational visibility.

06

ANALYTICS FRAMEWORK

KPI management, reporting tools, and advanced analytics.

07

NOTIFICATION ENGINE

Multi-channel notifications via Email, WhatsApp, SMS, and in-app.

08

INTEGRATION ENGINE

API gateway, connectors, and data synchronization made easy.

09

GIS FRAMEWORK

Map visualization, location services, and geospatial analytics.

10

DOCUMENT ENGINE

Document management, version control, and secure file storage.

11

MEDIA ENGINE

Digital asset management for images, videos, and multimedia files.

12

AUDIT & COMPLIANCE

Audit trails, activity logs, and compliance management.

WHY IT MATTERS

FASTER DEVELOPMENT

Pre-built components reduce development time by up to 70%.

LOWER TOTAL COST

Reusable components minimize cost and maintenance.

ENTERPRISE GRADE

Built with security, compliance, and scalability from the ground up.

FLEXIBLE & MODULAR

Use what you need today, scale and extend tomorrow.

FUTURE READY

Continuously improved components aligned with industry best practices.

Build Smarter. Deliver Faster.
Create Impact.

Pre-built & Proven
Tested in multiple enterprise projects

Secure by Design
Built with best practices and compliance in mind

Scalable Architecture
Designed to grow with your business

Continuous Innovation
New components and features delivered regularly

Community & Support
Backed by expert team and strong ecosystem

INTEGRATION CAPABILITIES

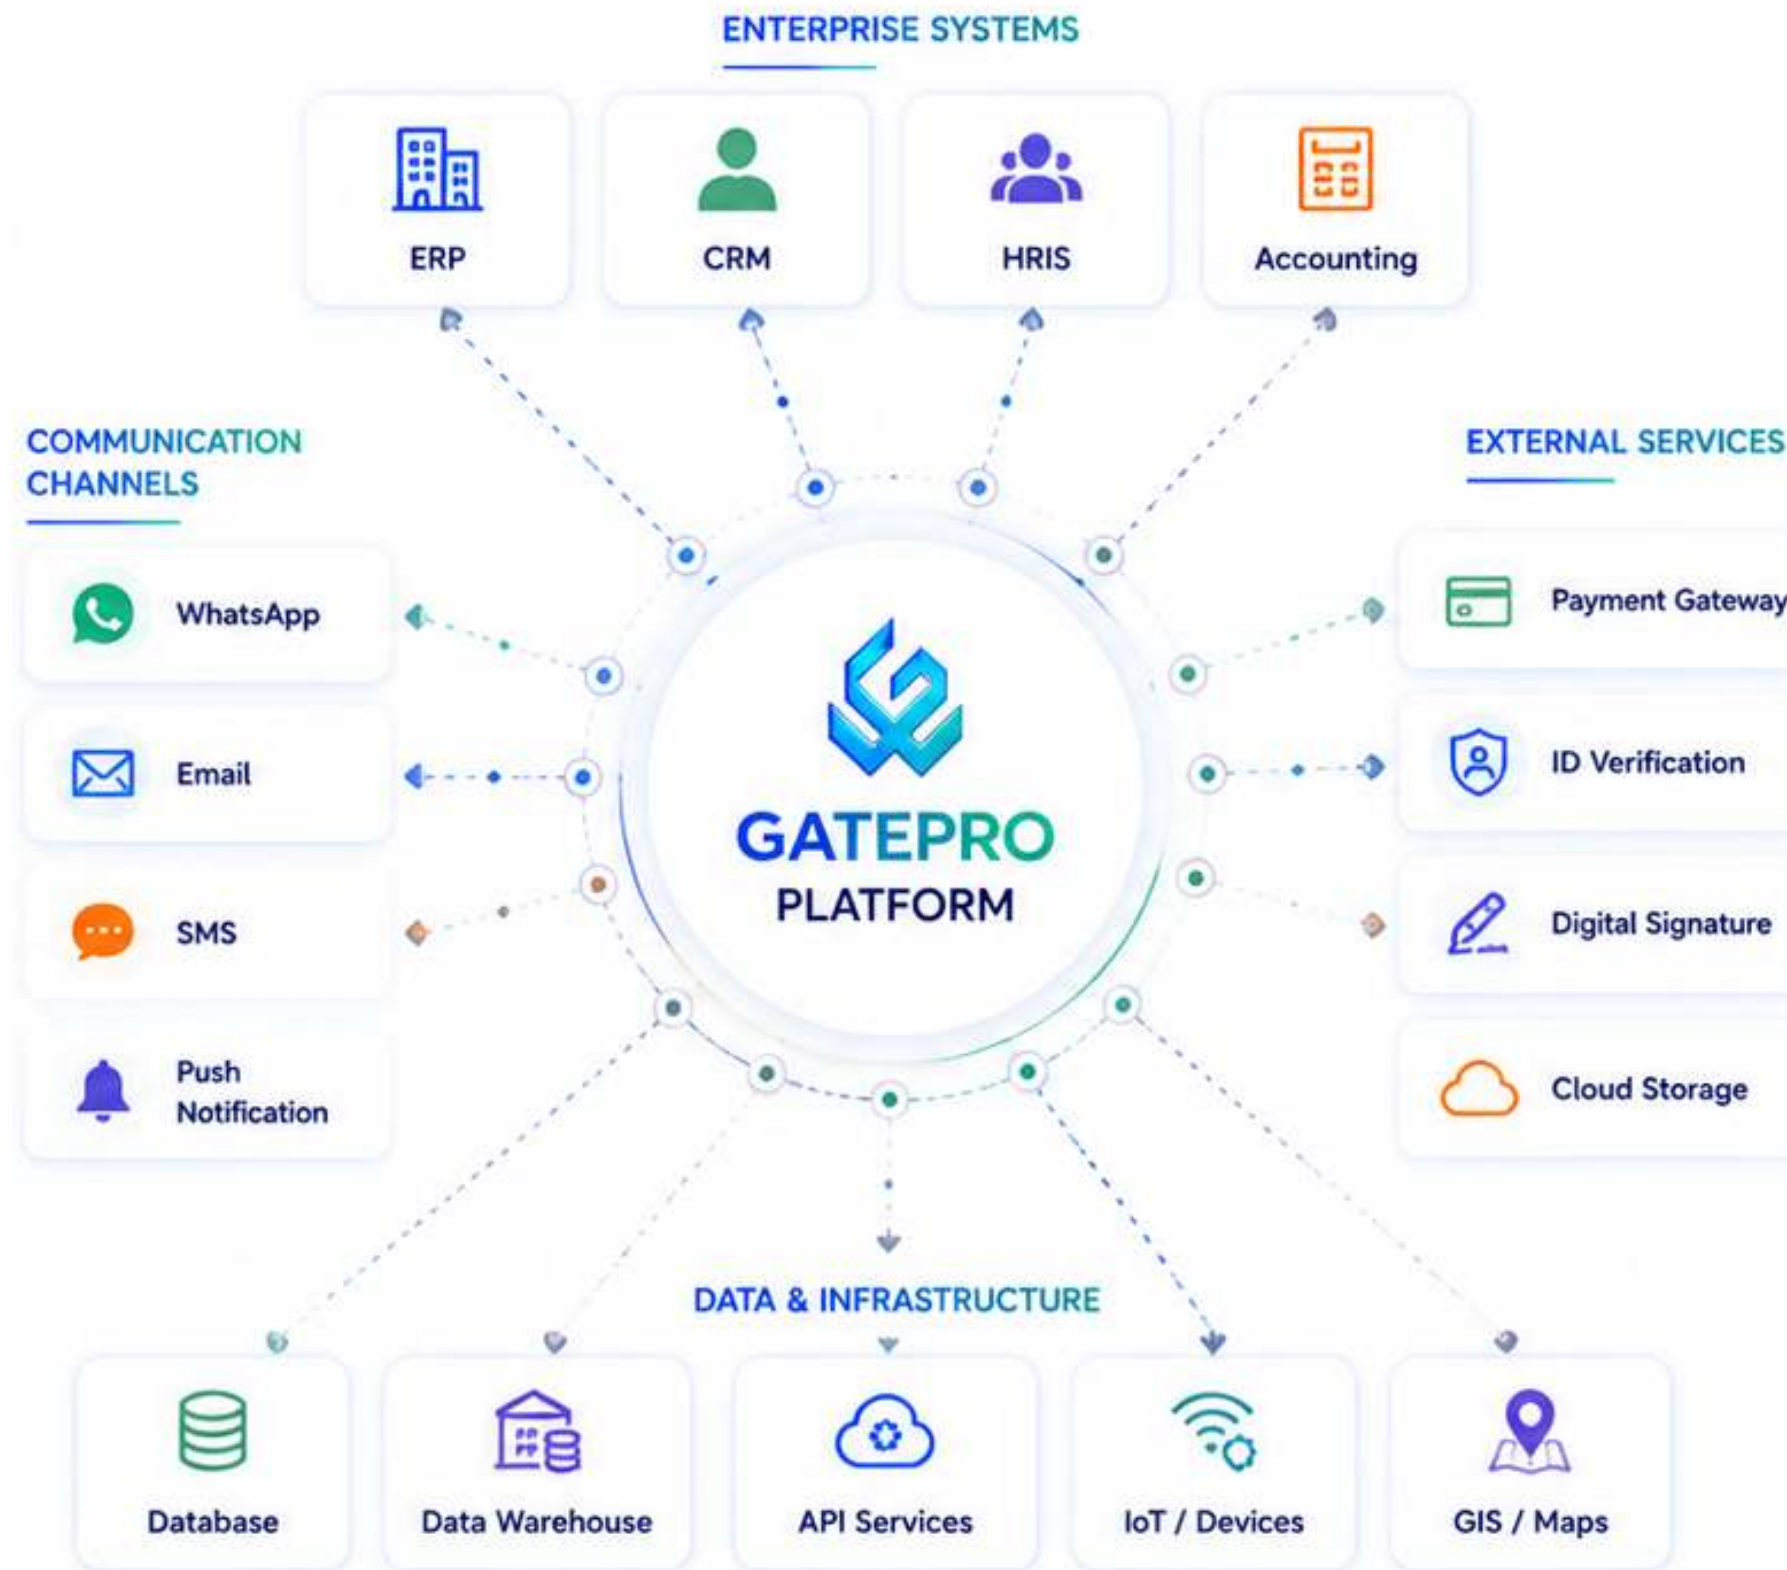

Connect. Integrate. Create Value.

Gatepro Platform integrates seamlessly with your existing systems, applications, and third-party services to build a connected digital ecosystem.

One Platform. Unlimited Connections.

Built-in integration tools, open APIs, and pre-built connectors make integration faster, easier, and more secure.

INTEGRATION BENEFITS

CONNECTED ECOSYSTEM
Unify all systems and data into one connected platform.

AUTOMATED DATA FLOW
Reduce manual work and eliminate data duplication.

IMPROVED ACCURACY
Real-time data synchronization ensures accurate information.

BETTER DECISION MAKING
Integrated data provides complete visibility.

FLEXIBLE & SCALABLE
Easily connect new systems and services as you grow.

SECURE BY DESIGN
Enterprise-grade security for all integrations.

Open API & SDK
Well-documented APIs and SDKs for seamless integration.

Pre-built Connectors
Ready-to-use connectors for popular enterprise applications.

Integration Orchestration
Visual workflow builder to automate and orchestrate integration processes.

Monitoring & Logs
Real-time monitoring, error tracking, and audit logs for all integrations.

Data Mapping
Flexible data mapping and transformation capabilities.

Enterprise Security
OAuth2, SSO, encryption, and role-based access for secure connections.

INDUSTRY CHALLENGES

Why Organizations Need Custom Digital Solutions

Many organizations face similar challenges that limit efficiency, visibility, and growth. Custom digital solutions help you transform how you work and deliver better outcomes.

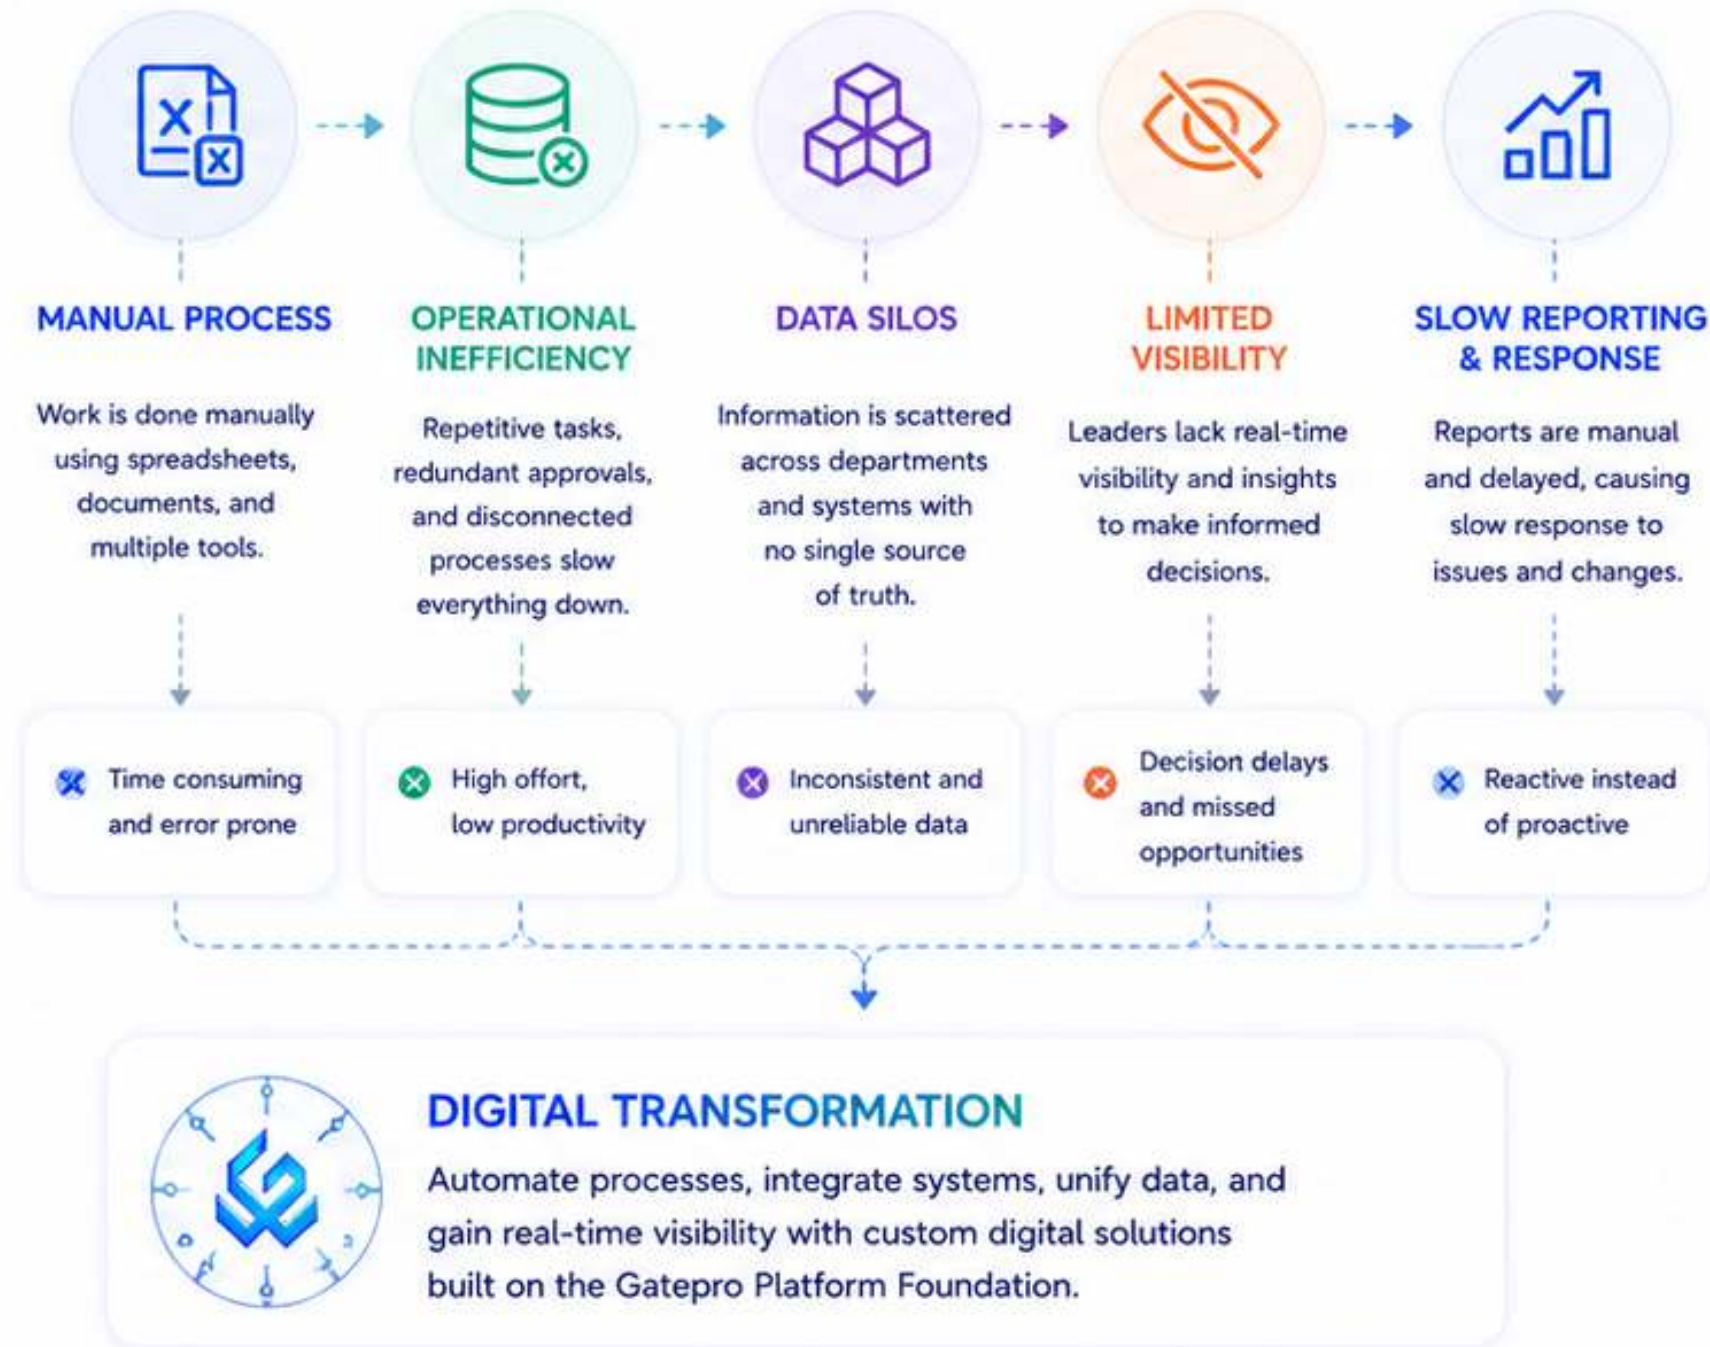

Our Goal

Turn operational challenges into optimized, automated, and data-driven workflows.

THE CURRENT STATE

Typical Operational Workflow Today

COMMON CHALLENGES

Spreadsheet Dependency

Critical processes rely on spreadsheets that are hard to manage and scale.

Paper-Based Workflow

Forms, approvals, and records are still manual and paper-dependent.

Manual Approval Process

Approvals take too long with email chains and manual follow-ups.

Data Fragmentation

Data is stored in different places with no integration or consistency.

Slow Reporting

Generating reports takes time and information is often outdated.

Lack of Operational Visibility

Hard to monitor performance and track progress across the organization.

THE IMPACT

Wasted Time and Resources

Higher Operational Costs

Increased Risk of Errors

Lower Employee Productivity

Poor Customer Experience

Slower Business Growth

Build Smarter. Operate Better. Grow Faster.

Overcome challenges with digital solutions built for your unique needs.

BUSINESS OUTCOMES

Real Impact. Measurable Results. Sustainable Growth.

Custom digital solutions built on the Gatepro Platform Foundation help organizations achieve meaningful outcomes that drive efficiency, agility, and growth.

Our Promise

We deliver solutions that create real business value and lasting impact for your organization and customers.

Built on a proven foundation. Designed for your success.

Our custom solutions transform the way you work and help you achieve better outcomes across your organization.

OPERATIONAL EFFICIENCY

Automate workflows, eliminate manual tasks, and optimize operations to do more with less.

COST OPTIMIZATION

Reduce operational costs, minimize rework, and maximize resource utilization.

REAL-TIME VISIBILITY

Gain real-time insights and complete visibility to make faster and smarter decisions.

BETTER DECISION MAKING

Leverage data and analytics to identify opportunities, manage risks, and drive better outcomes.

IMPROVED CUSTOMER EXPERIENCE

Deliver seamless, consistent, and personalized experiences that build trust and loyalty.

RISK & COMPLIANCE

Strengthen governance, ensure compliance, and reduce risks across your organization.

AGILITY & INNOVATION

Adapt quickly to change, launch new services faster, and stay ahead of your competition.

SCALABILITY

Scale your solutions seamlessly as your business grows without compromising performance.

SUSTAINABLE GROWTH

Build a future-ready organization that drives long-term growth and sustainable impact.

Different Solutions. One Foundation. Infinite Possibilities.

Delivering outcomes that matter, today and tomorrow.

MEASURABLE IMPACT

30–50%

Faster Process Completion
Automate and streamline workflows end-to-end.

20–40%

Lower Operational Costs
Reduce manual work, errors, and operational overhead.

35–60%

Improved Productivity
Empower teams to focus on high-value work.

25–45%

Higher Customer Satisfaction
Deliver better experiences that build loyalty.

99.9%

Platform Reliability
Enterprise-grade security, scalability, and uptime.

Outcomes Across Every Industry

Healthcare

Better patient outcomes and operational excellence.

Facility Management

Smarter operations and cost efficiency.

Safety & Compliance

Safer workplaces and stronger compliance.

Social Impact

Greater transparency and community impact.

Sports

Stronger engagement and efficient management.

Transportation

Smarter fleets and safer operations.
