SAFETY JOURNEY

KEY BENEFITS

Prevention

Identify hazards early and prevent incidents before they happen.

Visibility

Gain real-time visibility across sites, teams, and safety activities.

Compliance

Stay compliant with regulations and be audit-ready at all times.

Continuous Improvement

Leverage insights and analytics to drive a culture of safety excellence.

KEY BENEFITS

Why Safentra

Safentra delivers measurable impact across your safety operations to protect people, ensure compliance, and improve performance.

01

Proactive Risk Management

- Identify hazards early and assess risks proactively.
- Prevent incidents and reduce operational disruptions.

02

Faster Incident Resolution

- Streamline reporting, investigation, and approvals.
- Close actions faster and minimize downtime.

03

Compliance Assurance

- Stay aligned with regulations and standards.
- Be audit-ready with complete visibility and documentation.

04

Safety Intelligence

- Leverage real-time dashboards and insights.
- Use predictive analytics to drive continuous improvement.

Protect People

Build a safer workplace for everyone.

Reduce Risk

Lower incident rates and avoid costly impacts.

Ensure Compliance

Meet regulatory requirements with confidence.

Improve Performance

Enhance operational efficiency and productivity.

Strengthen Culture

Promote accountability and a culture of safety.

CAPABILITIES

Powerful Capabilities Built for Safety Operations

Safentra provides a comprehensive suite of capabilities to manage risk, ensure compliance, and drive a culture of safety.

- **Centralized Safety Data**
Unify all safety data in one platform for complete visibility.
- **Role-Based Access**
Ensure data security with role-based access and permissions.
- **Smart Notifications**
Stay informed with real-time alerts and automated notifications.
- **Analytics & Insights**
Leverage data and AI to predict risk and improve outcomes.

- **End-to-End Coverage**
Manage the entire safety lifecycle from reporting to resolution.
- **Regulatory Ready**
Built-in compliance frameworks and audit capabilities.
- **Mobile First**
Capture and manage safety anytime, anywhere.
- **Scalable & Flexible**
Adapt to your organization's needs and grow with you.
- **Secure & Reliable**
Enterprise-grade security and high availability.

PLATFORM MODULES

Modular. Integrated. Intelligent.

Safentra's modular architecture provides everything you need to manage safety and compliance across your organization.

CORE PLATFORM MODULES

- | | |
|--|--|
| 01 Incident Runtime
Report, track, and manage incidents. | 02 Hazard Runtime
Identify hazards and assess risks. |
| 03 Risk Runtime
Assess, evaluate and prioritize risks. | 04 Compliance Runtime
Manage obligations and regulations. |
| 05 Audit Runtime
Plan, conduct and track audits. | 06 Permit Runtime
Manage permits to work safely. |
| 07 Action Runtime
Track corrective and preventive actions. | 08 Notification Runtime
Deliver alerts and notifications in real-time. |

PLATFORM ARCHITECTURE

DEPLOYMENT OPTIONS

CLOUD
Fast to deploy, scalable and always up to date.

HYBRID
Combine cloud agility with on-premise control.

ON-PREMISE
Full control behind your firewall.

Enterprise Grade Security
Built with security, privacy and compliance at the core.

Seamless Integration
Connect with ERP, HR, Assets, and other enterprise systems.

Scalable by Design
Adapt and scale as your organization grows and evolves.

Unified Platform
One platform for all safety and compliance needs.

Modular & Flexible
Use what you need, scale as you grow.

Intelligent & Proactive
Leverage AI and analytics to stay ahead of risk.

Secure & Reliable
Enterprise-grade security and high availability.

Better Together
Empower people. Improve processes. Drive safety excellence.

INDUSTRY CHALLENGES

Safentra Safety & Compliance Challenges

Organizations face complex safety and compliance challenges that increase risk, impact productivity, and hinder operational excellence.

-  **Underreported Hazards**
-  **Delayed Incident Resolution**
-  **Compliance Complexity**
-  **Audit Preparation Burden**
-  **Lack of Real-Time Visibility**
-  **Fragmented Safety Records**

Challenge

Safety and compliance processes are often manual, disconnected, and reactive—leading to increased risk and operational impact.

Impact

Higher incident rates, regulatory penalties, loss of productivity, and damage to reputation and trust.

Safentra Solution

An AI-powered safety intelligence platform that unifies data, people, and processes to proactively manage risk and ensure compliance with confidence.

THE IMPACT

Increased Incident Risk
Unidentified hazards and delayed actions lead to more incidents and near misses.

Higher Compliance & Legal Risk
Non-compliance can result in fines, penalties, and legal consequences.

Operational Inefficiencies
Manual processes and siloed data increase time and resource waste.

Poor Safety Culture
Limited engagement and visibility reduce awareness and accountability.

Audit & Reporting Challenges
Time-consuming audits and incomplete records increase preparation burden.

Disconnected Data & Systems
Fragmented tools and data prevent real-time insights and effective decisions.

Address Challenges. Build a Safer Future.

Safentra helps organizations move from reactive to proactive safety management and operational excellence.

Identify Risks Early

Detect and assess hazards before incidents occur.

Act Faster

Streamline incident management and corrective actions.

Ensure Compliance

Simplify compliance management and stay audit-ready.

Gain Real-Time Visibility

Monitor safety performance across sites and operations in real time.

Empower Your People

Engage and enable your teams to build a strong safety culture.

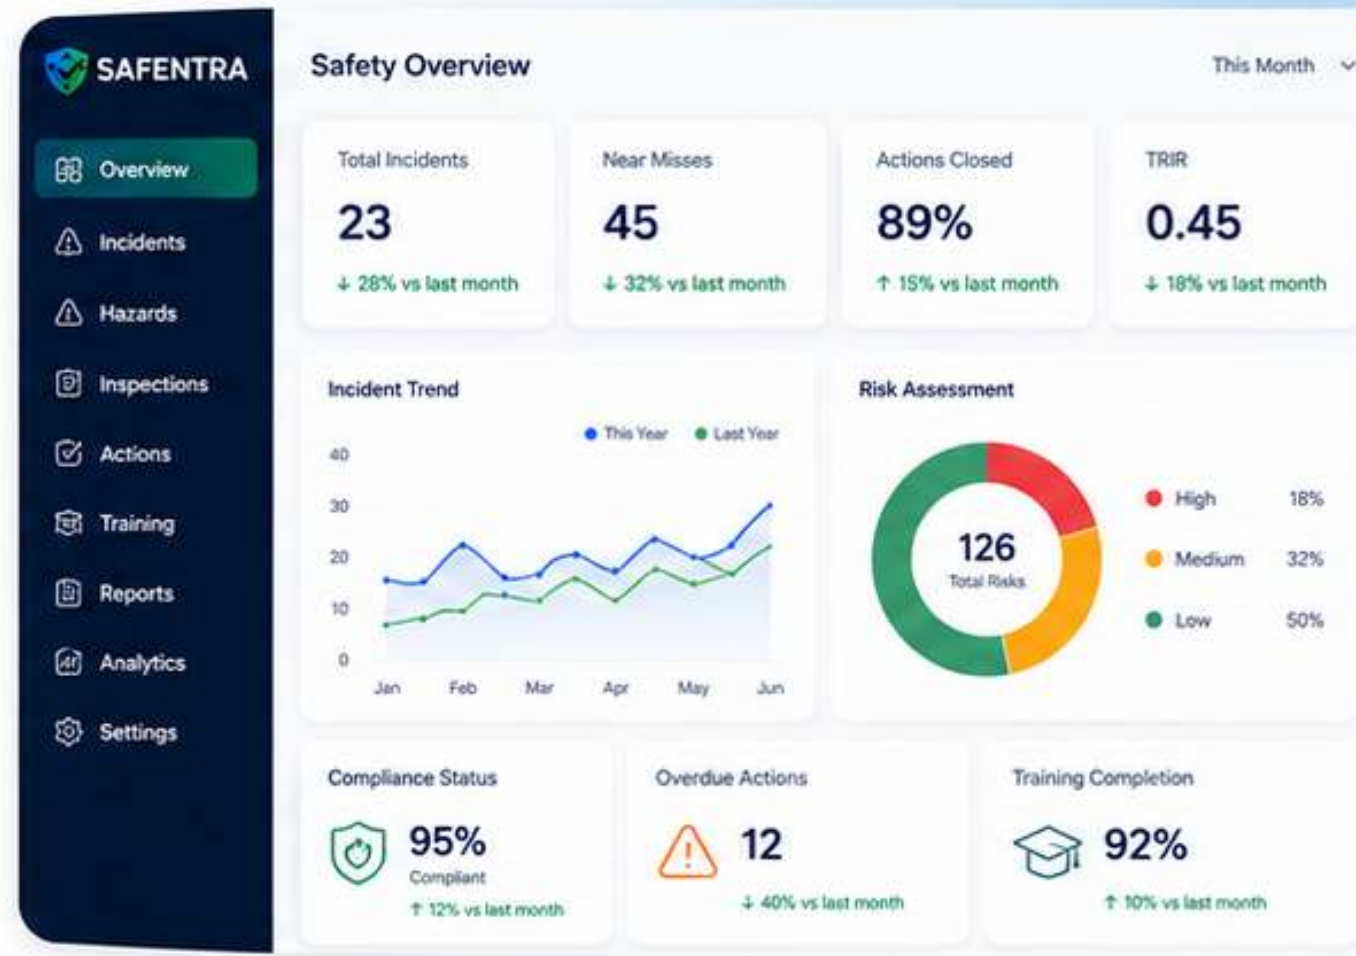

Reduce Risk, Improve Performance

Lower incident rates and drive sustainable business performance.

BUSINESS VALUE

Safentra Business Outcome

Delivering measurable business outcomes that reduce risk, ensure compliance, and drive a stronger safety culture across your organization.

Reduced Incident Rate

Proactively identify and mitigate risks to significantly reduce workplace incidents.

Faster Corrective Actions

Streamline workflows and improve follow-up to close actions faster.

Improved Compliance Readiness

Stay audit-ready with automated compliance tracking and complete documentation.

Lower Safety Risk Exposure

Gain continuous visibility into risks to prevent losses and protect your people.

Better Audit Performance

Centralized records and reports reduce audit effort and improve audit outcomes.

Stronger Safety Culture

Empower employees and drive engagement to build a proactive safety-first culture.

MEASURABLE IMPACT
